<i>Status:</i>	Classified	<i>Market Group:</i>	IT Services Consultant II+
<i>Drug Screen / Physical:</i>	N	Y	<i>EEO4 Group:</i> Professionals

### DISTINGUISHING CHARACTERISTICS

To provide Tier 1 support for the Data Center and Service Desk. This is the entry-level class in the IT Support Services section. This class is distinguished from the IT Services Consultant II+ by the performance of the more routine tasks and duties than those performed by the IT Services Consultant II+. This level will receive guidance from an IT Services Consultant II+ for training, assistance, and mentoring.

### REPORTING RELATIONSHIPS

Receives supervision from the Information Technology Supervisor; supervisory or management staff.

### MINIMUM QUALIFICATIONS

<i>Experience:</i>	Two years of Customer Service experience. Possess the ability to use and understand technical manuals and documentation, follow ITIL processes, and have the ability to troubleshoot customer technical issues.
<i>Education:</i>	Equivalent to an Associate's degree from an accredited college or university with major coursework in computer information systems or degree related to the core functions of this position.
<i>License / Certification:</i>	<ul style="list-style-type: none"><li>Requires the possession of a valid driver's license.</li><li>Possession of, or required to obtain within 6 months of hire, certification in related computer technologies as appropriate (e.g. MCSA: Microsoft, CompTIA A+).</li></ul>

### ESSENTIAL JOB FUNCTIONS

Essential job functions are the fundamental duties of a position: the things a person holding the job absolutely must be able to do.

To actively support and uphold the City's stated mission and values. To assess, troubleshoot, and follow established guidelines to solve hardware, software, and networking problems and to provide primary and secondary technical assistance to all departments via phone, remote network technology and on-site customer support.

## OTHER DUTIES AS ASSIGNED

Please note this job description is not designed to cover or contain a comprehensive listing of all activities, duties or responsibilities that are required of the employee for this job. Duties, responsibilities and activities may change at any time with or without notice.

- Assist in maintaining documentation for and participation in the City's Business Continuity Program including but not limited to; Disaster Recovery, Emergency Preparedness, and ISERT Plans.
- In depth knowledge of Service Desk functions by providing remote and on-site technical support to city departments, both local and global telecommuters, support of enterprise hardware, software, related peripherals, and the virtual desktop environment.
- Proficient with Microsoft Windows operating systems, Microsoft Office products, E-mail Exchange system, create and administer network logins and email accounts, manage user groups, apply file access rights, cloud services, and other relevant technologies.
- Configuration and administration of end user computing devices, network printers, mobile devices, VPN connectivity, workstation IP addresses, system settings, and imaging operating system software for the City's workstation computers.
- Provide software and hardware installation, upgrade, and troubleshooting support on-site or using remote network technology tools.
- Assist in evaluating and making recommendations regarding end user computing resources for application performance, software application usage and future upgrade needs, and recommend improvements and modification to computer system software models used on city workstations.
- Obtain price quotes and procure software and computer equipment for city clients. Assists with maintaining accurate inventory records for hardware and software licensing. Coordinate receiving, delivery and warehousing of computer equipment.
- Assist with software deployment through application virtualization, automated deployment packages, or use of enterprise system management tools.
- Establish and maintain effective working relationships with City staff and collaborate with other IT workgroups to resolve incidents and document in the incident management system using ITIL processes.
- Utilize knowledge articles to triage software and hardware failures, inform customers of system-wide issues, and maintain knowledge articles for common support resolutions.
- Assist with software and hardware technology refresh programs for all end user computing devices.
- Work as an Incident Manager or Service Provider on a rotational schedule to provide quality customer service. These daily functions are to efficiently work, monitor and resolve incoming customer incidents and service requests.

- Consult with customers to effectively and efficiently utilize available technology resources to better perform their job duties.
- Provide 24/7 on-call support coverage. Participate with off-hours projects as needed.
- Prioritize work, use effective time management to balance workload.

## PHYSICAL DEMANDS *AND* WORK ENVIRONMENT

- Pending
